

TERMINO  TIX

About Terminotix

At Terminotix, our goal is to provide the tools to meet all computer-assisted translation needs and be the provider of choice in the language services industry.

Terminotix is a software company with a mission to help language services departments and translation providers improve productivity by automating and enhancing their translation processes.

Our products enable managers to achieve productivity gains of 25% or more while helping translators standardize terminology.

About Terminotix

We are passionate about the needs of language professionals. We keep track of developments in the industry to deliver reliable, user-friendly products that meet our clients' concrete needs.

Our products are modular, enabling direct integration and generating rapid return on investment for our clients.

We work closely with our clients to provide exemplary service at every stage of the relationship, from sales and installation to training and technical support.

LOGITERM WEB

LogiTerm Web is a comprehensive CAT solution for businesses. It features a document alignment tool, a powerful search engine, many pretranslation options, a semantic term extraction tool, fully customizable terminology records, online access and much more.

ALIGNFACTORY

Most popular alignment software on the market, AlignFactory is perfect for aligning completed translations on a daily basis, for aligning a website, for feeding a translation memory, for bilingual concordance search engines and for NMT training.

BRIDGE TERM

BridgeTerm is a translation management system that simplifies the entire translation coordination process, from receiving a translation request to delivering the final product.

Terminotix products

SYSTRAN **Pure neural**[®]
SERVER

Systran is a world-class machine translation platform based on neural networks and artificial intelligence algorithms.

SYNCHROTERM

SynchroTerm is a multilingual term extraction tool that automates terminology record creation, allowing you to build termbases in a fraction of the time.

TRANSEARCH

The TransSearch online bilingual concordancer contains over 500 million words of Canadian content, including the Senate and House of Commons Hansard databases.
