

TERMINO  TIX

About Terminotix

At Terminotix, our goal is to provide the tools to meet all computer-assisted translation needs and be the provider of choice in the language services industry.

Terminotix is a software company with a mission to help language services departments and translation providers improve productivity by automating and enhancing their translation processes.

Our products enable managers to achieve productivity gains of 25% or more while helping translators standardize terminology.

About Terminotix

We are passionate about the needs of language professionals. We keep track of developments in the industry to deliver reliable, user-friendly products that meet our clients' concrete needs.

Our products are modular, enabling direct integration and generating rapid return on investment for our clients.

We work closely with our clients to provide exemplary service at every stage of the relationship, from sales and installation to training and technical support.
